ORGANOMETALLIC COMPOUNDS Index to Volume 29, nos.1-14, July-December 1976

As far as possible entries have been allocated to the individual metals. Some general references of the type 'Metal' or 'Lanthanides' have also been included. Because of the considerable content of patent material, it has been necessary to include references to the groups of the Periodical Table.

ALUMINIUM

Acetate 46,546,664,1195
